Without a roll call the senate Monday agreed to a motion to strike out the wording of the Kenyon-Shepard liquor bill and to substitute and pass the Webb bill, which passed the house on Saturday. The Webb bill simply makes unlawful the shipment of liquor into states, for purposes forbidden by the laws of the states into which the shipments are made. It was passed again by the House Tuesday to correct a technical defect.

Senators Root, Sutherland and Paynter, all noted as constitutional lawyers, opposed the Webb bill on the ground that it is unconstitutional. The President is said to believe the measure unquestionably is unconstitutional, and that its passage by Congress simply shifts the burden of responsibility for its final defeat from the shoulders of politicians to the Supreme Court.

With marked money, five Republican members of the West Virginia Legislature, were caught red handed accepting bribes in the Senatorial contest amounting to \$20,000, U. S. G. Rhodes getting \$15,000 of the money. All were put under heavy bonds. Democrats are supporting Senator Watson. The Legislature is Republican.

Tobacco Situation in Hopkins.

Madisonville, Ky., Feb. 10.—At a meeting of the members of the Stemming District Tobacco Association of Hopkins county held here Saturday afternoon strong resolutions were adopted asking the Executive committee of the association to refuse to accept any sum less than eight dollars per hundred for the 1912 pooled crop. It was understood that the association had sold ten million pounds of the crop at Henderson at 7 cents, and the sentiment of the members here was that this was entirely unsatisfactory, and they asked in the resolutions that the matter be submitted to a vote of the membership before the sale is made.

REACHED
HIS GOAL

Explorer Scott Found the South Pole Only To Perish in Blizzard.

ENGLISHMAN HEARD FROM

Was a Month Behind Amundsen, Whose Flag He Found Planted.

London, Feb. 10.—Capt. Robert F. Scott, the Antarctic explorer, and four of his companions on his dash to the South Pole, perished on their return journey from the pole, which was attained Monday, January 18, 1912. Official announcement of the catastrophe which overtook Capt. Scott's expedition, was made at a meeting of the Royal Geographical Society here tonight.

It was announced that Capt. Scott, Dr. E. A. Wilson, Lieut. H. R. Bowers, Capt. L. E. G. Oates and Petty Officer Evans, had perished.

The news of the death of the explorers came in a brief dispatch from Lieut. E. R. G. R. Evans, of the royal navy, who was second in command when the expedition started, and who now signs as "commander" of the expedition.

A searching expedition recovered the bodies and records of the party. Capt. Scott's party found Capt. Roald Amundsen's tent and records at the South Pole. On the return trip, about March 29, 1912, eleven miles from One Ton Depot a blizzard overwhelped them. They had suffered greatly from hunger and exposure, and the death of Scott, Bowers and Wilson virtually was due to that. They died soon after the blizzard swept down on the party.

Oates died from exposure March 17. The death of Evans resulted from a fall Feb. 17. The other members of the expedition are reported to be in good health.

"SECOND JESUS CHRIST"

Jailed For Deluding White Women In Evansville.

Wilson Johnson, a negro "healer" was released from the Evansville jail last week, where he had been placed by an order of the city judge, for nonpayment of a fine for "promoting the mingling of the races." The fine was paid by Joel Fort, of Robertson county, Tenn. Mr. Fort's father owned Johnson's mother, who claimed to possess occult powers and that she passed them to her son. When the jail doors opened to let Johnson pass out to liberty 50 white women were waiting in the jail yard to welcome him, whom they believed to be a divine healer. From his infancy Johnson's mother had taught him that he was a second Jesus Christ and the 50 or more white women who met him at liberty's door believed the same thing, claiming that he had wrought cures for their families and friends. He was quite successful in Evansville but took his departure for Cleveland, Ohio, as soon as he was released. Some of the white women threatened to follow him.

Received At The Western Kentucky Orphans' Home.

Four more little inmates for the Orphans' Home is the record Monday. An urgent letter call Supt. Humphrey to a neighbor county where he found four little children who were in need of immediate help. They were formally assigned to The Home, but on account of having whooping cough could not be brought at once into the Home. A supply of coal and provisions were purchased for them and arrangements made for their keeping until all danger of communicating disease to other children has passed when they will be brought into the Home. There was not enough food in the house for a meal for one child and no fuel on hand, but the Home will make them comfortable until they can be brought in.

It will not be amiss to state in connection that Mr. Humphrey being kept quite busy now. After children are coming daily these trips are made at an expense of from five to fifteen dollars each and this in addition to the maintenance of the Home.

CLOSE CALL YESTERDAY

For Ed C. Gray, Who Took Car-
bolic Acid By
Mistake.

SAVED BY QUICK ACTION

Bottles On Shelf In His Office
Got Mixed Up And
Caused Mistake.

Ed C. Gray, the liveryman on East
Ninth street, came near taking his
own life yesterday, about noon, un-
der the following circumstances:

Mr. Gray had been taking a cer-
tain kind of medicine for some ail-
ment and kept it on a shelf in the
office of his stable. About noon,
while two or three of his friends
were in his office, he took down a
bottle from the shelf, after having
filled a glass with water, and poured
the medicine into it and swallowed
it. As soon as he had drunk it the
end of his tongue burned so that he
looked at the bottle and found he
had taken carbolic acid. He rushed
into Blythe's drug store and asked
how much carbolic acid would kill a
man. Mr. Blythe told him a tea-
spoonful. Mr. Gray then said, "I
have taken a teaspoonful and a half
and you had better pump it out." Dr.
F. P. Thomas was called at once
and he had Mr. Gray to first swallow
three or four raw eggs and then
applied the stomach pump. In a
few minutes the poison was extrac-
ted and Mr. Gray was all right at 10
o'clock.

One of the hostlers about the stable
had been using carbolic acid in treat-
ing a horse and had put the bottle
longside the one which contained
Mr. Gray's medicine. The contents
of the bottles were the same color
and it was easy for Mr. Gray to
make the mistake.

Deafness Cannot Be Cured
by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure deafness,
and that is by constitutional remedies.
Deafness is caused by an inflamed con-
dition of the mucous lining of the Eustachian
tube. When this tube is inflamed
you have a running ear or impaired
hearing, and when it is entirely closed,
deafness is the result, and unless the in-
flammation can be taken out and this
tube restored to its normal condition,
hearing will be destroyed forever. Fine
cases out of ten are caused by catarrh,
which is nothing but an inflamed con-
dition of the mucous surface.
We will give one hundred dollars for any case
of deafness cured by our treatment, if you
will send us your name and address to

ileges, subject to each and all of
the restrictions and regulations here-
in contained, and enforced, not in
conflict with the laws of this state
now in force, or which may be here-
inafter enacted.

1. That there is hereby created
and established a franchise or priv-
ilege to erect, operate and maintain

o'clock, there will be a social session
in the dining room of the Elks Home
to celebrate the 13th anniversary of
this institution of the lodge.

Committees have been at work for
some time and anything but a dull

served under the direction of W. R.
Wicks and A. C. Overshiner the pro-
gram committee will take charge
and pull off some stunts with T. C.
Underwood at the throttle.

All spasms will be limited to five
minutes. They will go home when
they get through.

And under this franchise not more
than five phones shall be put on any
party line.

The above rates shall entitle all
subscribers under this franchise to
service without additional charge on
all lines or exchanges owned, leased,
operated or maintained by the pur-
chaser of this franchise, its successors
or assigns, within the limits of Chris-
tian county, and on and over all
other lines with which the purchaser

9. That all telephones put in or
operated under this franchise shall
be long distance telephones, and
shall be operated on a metallic sys-

workable condition, except for un-
avoidable cause, and if any phone
shall be left by the owner of this
franchise so that it can not be used
for as many as five days in suc-
cession, after notice, no charge shall be
made or collected from the subscrib-
er thereof for the time said phone
was out of use.

10. That within ten days after
the approval of this order, this Court,
shall by and through the county At-
torney, who is hereby appointed a
committee for said purpose, adver-
tise this franchise or privilege for
sale, by posting written or printed
copies of this order, constituting this
franchise or privilege, in at least
three public places in the City of
Hopkinsville, Kentucky, or by ad-
vertising same in some newspaper of
general circulation, in said county,
once each week for three consecutive
weeks next prior to day of sale, that
bids will be received at public out-
cry for said franchise at the front
door of the court house in the City
of Hopkinsville, Kentucky, at 1:30
o'clock p. m., on Tuesday, March 4,
1913; and the County Attorney, accord-
ing to said advertisement, shall offer
same for sale and receive bids there-
for and report said bids to this court
at the next said meeting to be held
on the said Tuesday, March 4th,
1913, and immediately after secur-
ing same, and this court shall award
same to the highest and best bidder,
but this court reserves the right to
reject any and all bids made at the
sale of this franchise.

The bidder to whom this franchise
or privilege shall be awarded shall
pay the amount of such bid, in cash
or duly certified check, payable to
the order of the Sheriff of Christian
County, before his bid shall be ac-
cepted by this court.

And it is further ordered that the
minimum price for which this fran-
chise shall be sold is an amount
equal to the amount of costs of ad-
vertising same, which minimum
price will be stated by the
County Attorney, before or at the
time of receiving said bids, and he
will report the amount of same
with a full report of his acts to this
court, as heretofore ordered.

HORSES RAN AWAY

And Fell At Ninth and Main Without Injury.

The two large horses that draw the delivery wagon of the Hopkinsville Mills became frightened on Ninth street, east of the L. & N. railroad yesterday and ran off. They ran down Ninth street and at the corner of Main one of them fell. One hind wheel was left standing on the side walk, as the horses had broken loose from the wagon when the first horse fell. The other animal kept on going until he got to the opposite corner when he also fell. Both animals were "assisted to their feet" and no damage was done except the breaking of the harness.

BROKE IN ON THE APPEAL

Representative's Carefully Prepared Peroration Apparently Lost on the President.

Dan R. Anthony, the monolithic member of the house from Kansas, more than six and a half feet tall, and three feet wide at the shoulders, gamboled into the White House the other morning to see the president. Ushered into the president's office at the same time was Representative Samuel W. Smith of Michigan, who weighs probably ninety-three pounds when clad in his heavy ulster. It was an odd-looking gathering—the huge president, the colossal Anthony and the diminutive Smith. Anthony plunged at once into the matter he had come for—an appointment he wished to put through. He talked with much earnestness for four or five minutes while the president stared up at him like a man looking for a pigeon on top of the Metropolitan tower. As he came to his peroration, Anthony worded his sentences with extra care, and tried to make every phrase count. He was within sight of his final period when the president, who had been staring up at him preoccupiedly, interrupted him by remarking, irrelevantly and almost in alarm:

"Why, Dan, your hair's actually getting thin, isn't it?"

RELIEVING STRAIN ON EYES

Use of Ice or Cold Water Compress Is Recommended When Unusual Work Has to Be Done.

When you are compelled to subject your eyes to severe and continued strain it is well to have within easy access some ice, or some very cold water. If the eyes ache and throb make a little compress of cracked ice and lay it over the eyes. Remove it when the eyes become too cold. There will be a reaction, the blood rushing back to the organs. When this occurs, the compress may be laid on again. If ice is not obtainable, the cold-water treatment, during which time the mind is utterly relaxed, so as to rest the nerves, will return you to your work greatly refreshed. Sometimes the difficulty is centered more in the nerves than in the organs of sight; hence the advisability of the five minutes' rest and relaxation, with the eyes closed.

ZERO.

The word "zero" is from the Spanish, and means empty, hence nothing. It was first used on a thermometer in 1795 by a Prussian merchant named Fahrenheit. From a boy Fahrenheit was a close observer of nature, and when only nineteen years old, by experimenting with snow and salt, he discovered what he believed to be the lowest degree of temperature known in the world. He called the degree "zero," and constructed a thermometer with a scale graduating up from zero to boiling point, which he numbered 212, and the freezing point 32, because, as he thought, mercury contracted the thirty-second of its volume on being cooled down from the temperature of freezing to zero.

RECOGNIZED THE DESCRIPTION.

Several tourists, strangers to each other, were comparing notes.

"I am from Bonnie Scotland," said one.

"I am from the Emerald Isle," said another.

"My home is in the prettiest valley in Wales."

"I hail from Australia."

"And my home is in the greatest, the grandest, the richest and the most beautiful land in all the world."

Then the others exclaimed in chorus:

"Well, the conceit of these Americans!"—Youngstown Telegram.

QUALIFIED.

"Have the Swasibys a large income?"

"Oh, dear, no! They live so much beyond their income that nobody has the slightest idea of what they are really worth."

"Hum! Very estimable people, no doubt. We must be sure to have them at our next dinner party."

THEY WILL BURST.

Mrs. Dearborn—What tires are you using on your car?

Mrs. Wabash, parvenu—Oh, gracious! I don't know. Jenkins, my chaffer, attends to all that."

"But don't you know the kind of tires you use?"

"Well, I know it's one of the bustin' kind, that's all!"

AMUSEMENTS.

The Grahame Stock Company, now in its ninth year, and known as one of the best popular price attractions on the road, will begin a week's engagement at Holland's opera house next Monday night. During the company's stay in our city a widely contrasting line of plays will be given, ranging from heavy drama and costumed romance to the most farcical of comedies. A special feature of the engagement will be the mounting of each play, the Grahame

show car carrying its own special scenery, new and handsome, a complete equipment for each production. Another big inducement to attend will be a line of excellent vaudeville, from four to six specialties given with each play and entirely changed every night.

The opening bill next Monday night will be "The Stepmother," a happy blending of pathos, sensation and screaming comedy. Prices will be 10, 20 and 30 cents; ladies being entitled to the best seats free on the opening night, if each is accompanied by one paid 30 cent ticket. The number of these tickets is limited, good on Monday night only and must

be reserved in advance before 6 p. m., Monday next. Seats on sale Saturday at Anderson-Fowler Drug Co., Incorporated.

"SKY LEASE."

What is known as the "sky lease" in Cleveland, O., is one of the most curious building space leases ever drawn up. Some time ago a frontage of 150 feet was leased for a term of ninety-nine years, and the lessee erected a six-story shop and office structure having foundations strong enough to carry several additional stories. After the building was completed the owner leased the air space above the sixth floor, and the support of the walls and columns of the six-story structure to the Cleveland Athletic club. The club then added seven stories to the six-story structure at a cost of more than \$500,000. The club pays a fixed annual rental for its "air space," along with the entrance space for the lifts and a space in the basement. The seven top stories are, of course owned by the athletic club, and at the termination of the lease, which will run for about ninety years, the owner of the fee agrees to pay the appraised value of the improvements, or extend the lease for another period of years.

The Boys' Corn Club Boys Are Getting Busy Testing Their Seed Corn

It does seem odd that more farmers and their sons have not done seed testing in the years that have passed and saved themselves any amount of worry and bother and loss of time and money. Last season a number of the boys in the clubs used shelled seed corn that was bought or furnished them and learned to their sorrow that it was poor seed. Their stand of corn was miserable, and at the very outset of the contest their chances for a prize were gone.

Many of the boys in the boys' corn clubs have learned their lesson and are busy these winter days. Some of them are prize winners of other seasons; others are the fellows that have shut their teeth hard and are going to try again. Both kinds are going to test their corn so that there will be no chance of a stand that will have to be replanted.

The boys are using old boxes that can be cut down to the required size or they are making boxes from any old lumber that is lying about the farm to use for their testing boxes. Nothing fine or especially good looking is necessary. Just a shallow box about 10 by 15 inches is all that is needed to test from 100 to 150 ears of corn. These boxes can be made and the corn tested now, while there is no danger of its getting in the way of any of the spring rush work.

The bolls which are driven into the edge of the box are an inch apart, so that string may be drawn across from both directions. Each square inch

SPROUTED SEED CORN.

outlined by the strings is enough space in which to plant six grains of corn, and that is enough to determine whether an ear of corn will do for seed or not.

In selecting the grains from each ear of corn that is to be tested remember that a grain should be taken from each of the different parts of the ear. This of course means running from butt to tip and around the entire circumference. As the six grains selected from the ear are placed in the moist earth or sand, mark the square and the ear with the same number so you will know which ears to keep and which to discard.

When your testing box looks as far advanced as the one in the photo it will be an easy matter for you to decide which ears to keep for seed. If six strong, healthy plants come from the six grains planted you have a perfect ear of seed corn. If four have come it is questionable. Less than four means only half a stand at planting time, and the ear must be discarded.

The boys who are members of the boys' corn clubs of Kentucky have made their fathers and their big brothers who thought they knew everything about corn growing sit up and take notice. There is still a chance to teach them the value of the corn tester, so let each and every corn club boy test his seed corn this spring. IF THE BOYS WHO GREW ONE HUNDRED BUSHELS TO THE ACRE THINK IT PAYS TO TEST THEIR SEED CORN, HOW ABOUT YOU?

How One County Is Solving the Sub-district Trustee Problem

The weak or the strong point in each and every rural school in our state is the subdistrict trustee. If a strong, thoroughly interested man is elected everything is well, but if a careless, indifferent man holds the office the school is in bad shape. A good trustee means a clean, comfortable building, a competent teacher and some interest on the part of the general public. A poor trustee means a badly kept building, a second or third rate teacher and a lack of interest by the neighborhood.

A. F. Maffett, Sub-Trustee.

This report must be mailed to the County Superintendent within three days after date of visit.

COUNTY BOARD CONTRACT

We, the County Board of Education, of Nicholas County, Kentucky, agree to examine carefully the monthly reports sent in by the Sub-District Trustees of each District, and to assist them in any way possible to put their schools on a higher basis. We also agree to pay each Sub-District Trustee 25 cents an hour, not to exceed three hours, for their official visit once a month, for a term of six months unless the term is extended longer. The County Board shall for neglect of duty, unless the Sub-District Trustee was legally prevented, declare the office vacant and appoint another.

SUB TRUSTEE CONTRACT.

We, the white Sub Trustees of District No. Div. having been duly elected and sworn into office, do hereby agree to visit our school at least once a month not less than one hour for our official visit. I agree to examine carefully according to printed list of instructions and questions furnished by the County Superintendent, and to write a correct report and mail the same to the County Superintendent within three days after said visit. For this official visit each month I am to receive 25 cents an hour not to exceed three hours for any monthly visit.

Signed

The above contracts and reports tell their own story. In Nicholas county a number of uninterested trustees have been automatically dropped and interested men put in their places.

Good Roads Convention Can

It is very gratifying to Mr. Metcalfe to know that his efforts to furnish societies and business organizations with a place for holding their meetings are appreciated. The Daughters of the Confederacy, the Christian County Medical Society and the Blackstone Club have accepted Mr. Metcalfe's offer of a free meeting place. His invitation is also specially extended to the D. A. R.'s and the Civic League.

The auditorium holds about 600 people, is heated by steam and is the best lighted auditorium in the city. The young people of both sexes gather at the auditorium at 2 o'clock in the afternoon and pass a great part of their time playing boxball.

Rev. Dr. G. H. Schleh, under the auspices of the Woodmen of the World, next Wednesday night, will lecture. Of course it will be free to everybody, and will no doubt be listened to by a large number of our people.

The Good Roads Convention, to be held here on the 19th and 20th of this month, will be a large gathering, not only of the people of this county but from different sections of this State and Tennessee. Mr. Metcalfe authorizes us to extend a most cordial invitation to the committee of arrangements to use the Avalon for all the sessions.

He also wants men's business organizations to know that they are perfectly free to use the Avalon for their meetings. He is not out begging people to avail themselves of his free offer, but he wants to im-

MRS. LIPSCOMB

Elected Librarian For The New Carnegie Library.

At a meeting of the Public Library Board Tuesday night Mrs. Virginia Lipscomb was elected Librarian for one year, the term to begin when the Carnegie Library is completed, supposed to be about July 1, 1913. Mrs. Lipscomb has for several years been librarian for the Hopkinsville library and she is well qualified for the place. She will, however, take a special course of instruction in the new and heavier duties she will be called upon to perform.

press upon the public mind that his auditorium was built for the free use of the people, in the county and in the city.

With the opening of spring he will rush to rapid completion his handsome new block, the greenhouse already being well under way. Since he commenced operations he has had to contend with much unfavorable weather, and under the same conditions, but few people would have forged ahead as Mr. Metcalfe has done, often working between the showers during the fall and in the winter choosing a day or two of a week that was not too inclement for building operations. Though he has had to go slow on some parts of the building, that do-something spirit that dominates his life has impelled him to keep things moving when they were not frozen together.

Yesterday morning, which was one of the coldest of the winter, out on the glass-enclosed sun-parlor the temperature registered 65 degrees, and, strange to say, the heating apparatus was not in use. The sun parlor will overlook the big green house, which is now partially completed. The view of the Avalon, which is thrown on the screen at the picture shows every day, gives an exact idea of what the block will be when completed, and there is no need speaking of the interior of the building.

The interior is something that all people will be pleased with when the finishing touches are put on in the spring months. A commodious kitchen, bath rooms and many other features, almost forgotten by the people that Mr. Metcalfe has given his word for, are sure to follow.

Wednesday was the 104th anniversary of the birth of Abraham Lincoln, but there was no observance of the day here. He died April 16, 1865.

Next Saturday will be anything but a holiday for the post office officials and they will be glad when St. Valentine's day is gone. However they will have a rest on the 22d.

"Uncle Joe" Cannon's farewell dinner, after 40 years in Congress, comes off to-day. For the good of the country it is to be hoped that he may be as long breaking into Congress again as he was in being put out.

Next summer, when the bathing season opens up at Elgewater Park, the young ladies should not forget that long gloves are the latest fad while bathing. They are, really, about the only thing worn that is long.

It seems, from the Journal, that Henderson has a touch of the baseball fever and the fans are talking about building another park. The local fans are slow about getting a move on themselves but Bassett and his Big Stick is behind them.

Winter will soon be over, no matter what groundhog thinks about it. The song of the Red bird and voice of Robin Redbreast is already heard in parts of the city and we had rather trust them than Mr. G. Hog, who hardly ever fails to see his shadow when people don't want him to.

When our farmers become as enthusiastic on the subject of scientific farming as the members of the Fiscal Court, there will be no trouble in getting the Court to buy a piece of land for an experimental farm. That is what will soon be needed if we are able to see things at "a near distance."

Since Dr. Hirschberg, of Johns Hopkins University, tells the world that commercial glucose is perfectly harmless, the sugar refiners might well put a little in granulated sugar, which nowadays seem hardly more than half as sweet as it use to be. Brown Sugar is about the only sweet sugar now on the market.

Push the Button

Drive up in front of our Grocery Department. You will see a new box post standing on the edge of the pavement with an Electric Push Button. Take your whip handle and press the button and a real live clerk will rush out at once, anxious to take your order, and to save you the trouble of getting out, hitching your horse and entering the store. Try it and see how it works.

This principle, "You Push the Button and we'll do the rest," you will find now obtains in every department of our business.

Why shouldn't the B. M. A. make an effort to have the State Druggists' Association hold their convention here this year? There are
